

# REFERENCE LIST 2018

**12/24/36/40,5 kV Gas Insulated Switchgear**

compact & modular

Ormazabal has a complete range of fully gas insulated compact and modular Secondary Distribution Switchgear up to 40.5 kV :

- ga/gae
- cgmcosmos
- cgm.3

The combination of these different ranges makes it possible to cover all the market requirements and respond to the needs of the most demanding installations.

The whole range is of the highest quality based on careful attention to design to ensure both personal safety and the reliability of the service.

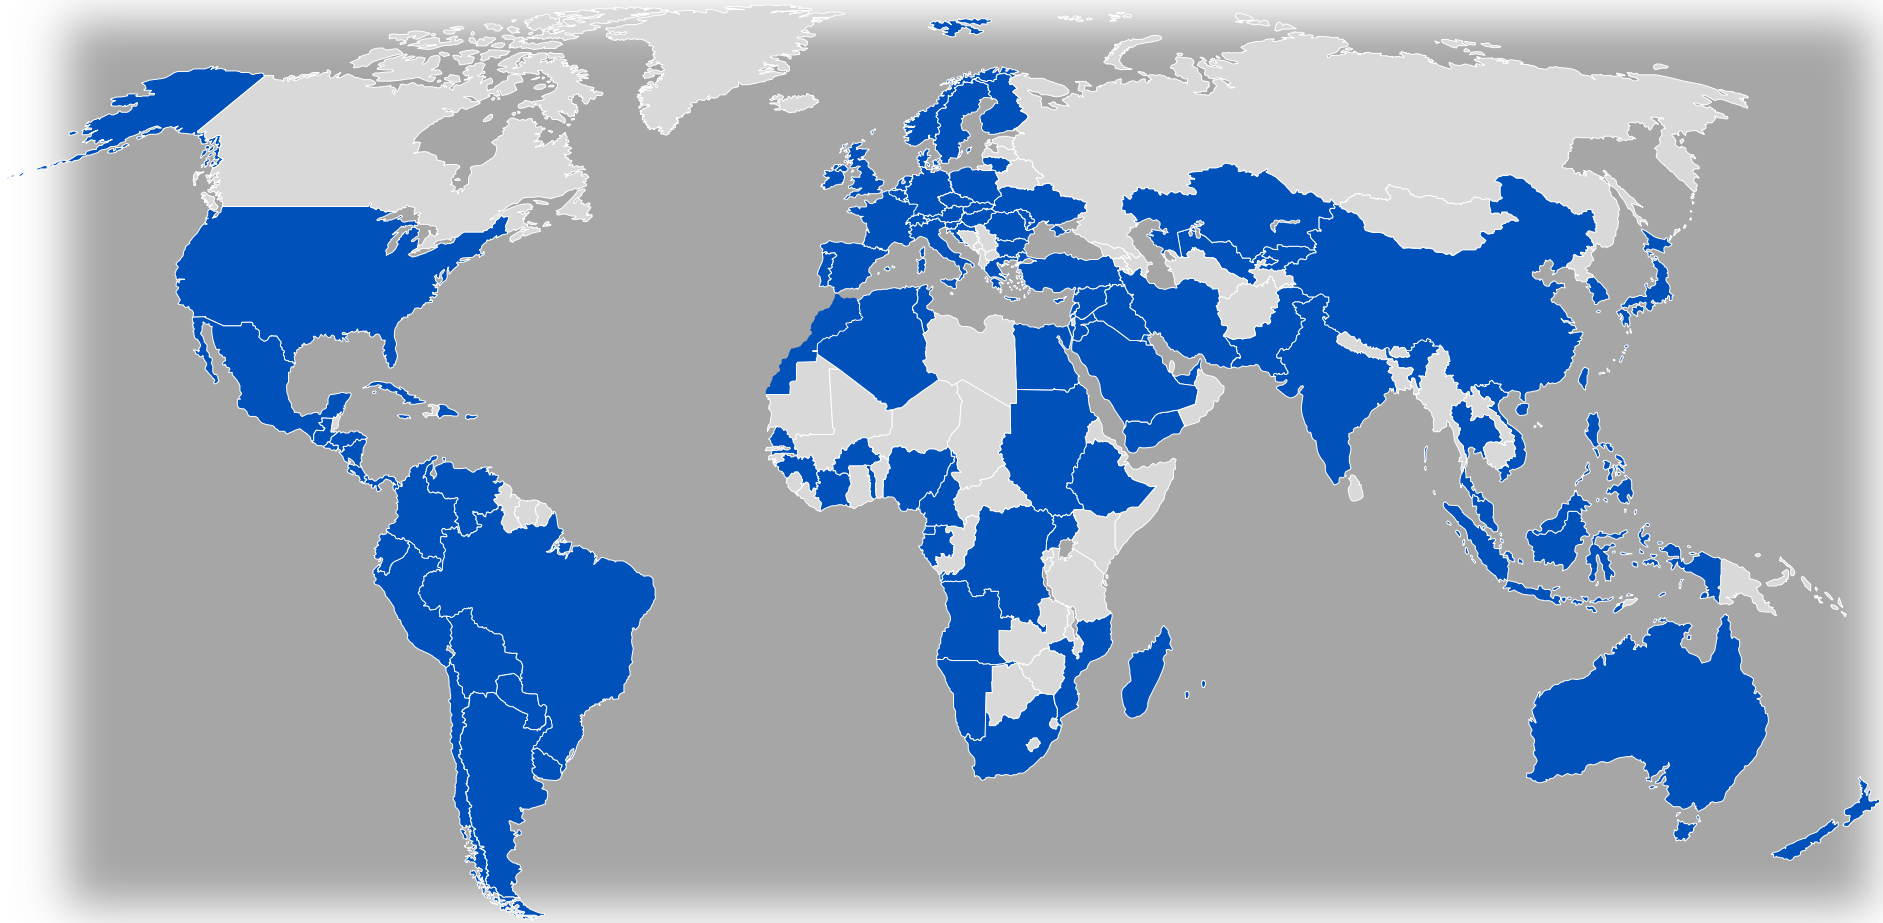

37 years ago we started manufacturing our first family of fully gas insulated switchgears. Since then, more than 1,590,000 functional units have been installed in more than 110 countries worldwide.

The below Reference List is organised by main countries and by main important customers.

This Reference List was latest updated on March 2018.
