+735 M€

Turnover

velatia

We are experts in
customized and high-tech
electrical solutions for your
challenges

+50

Years of experience

+2400

People working

543 M€

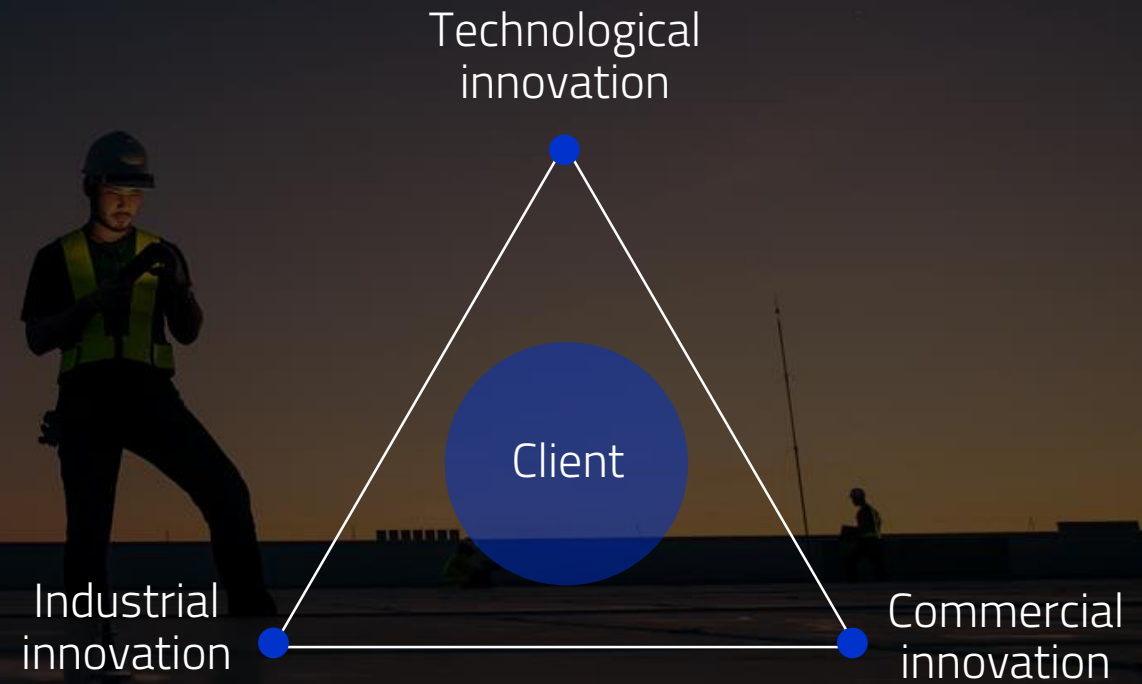

Turnover

16 + 1

16 productive centers and
1 research and
technological center

Innovation is in our DNA

Technological innovation

Comprehensive end-to-end technological expertise

Over 300 patents and IP registrations

A complete portfolio of digital native products

How do we do it?

We invest 4% of our turnover in R&D&I

We are a team of more than 250 technologists from 10 different nationalities

A unique research and technology center in the world

Industrial innovation

Efficiency at global level

Local adaptability

How do we do it?

Investing in a production platform and following Industry 4.0

Following "Lean Manufacturing" principles

Industrial customisation facilities on all 5 continents

Commercial innovation

Service

Consultancy

Co-development

How do we do it?

With a highly qualified team of experts in the electrical network

Support from the identification of the need to the after-sales service

Our footprint is global

- 1 Technological center +
Product development in
8 countries
- 16 productive
centers
- Presence in
more than 50
countries

+2M

Installed equipment

+42k

Automated facilities

Sustainability is the focus of our business

Sustainable business

25% of our sales comes from renewable energies

Wind and solar connections of **+150 GW**

20% of the ultrafast recharging stations in Europe are connected by us

Sustainable company

+40% reduced emissions since 2019

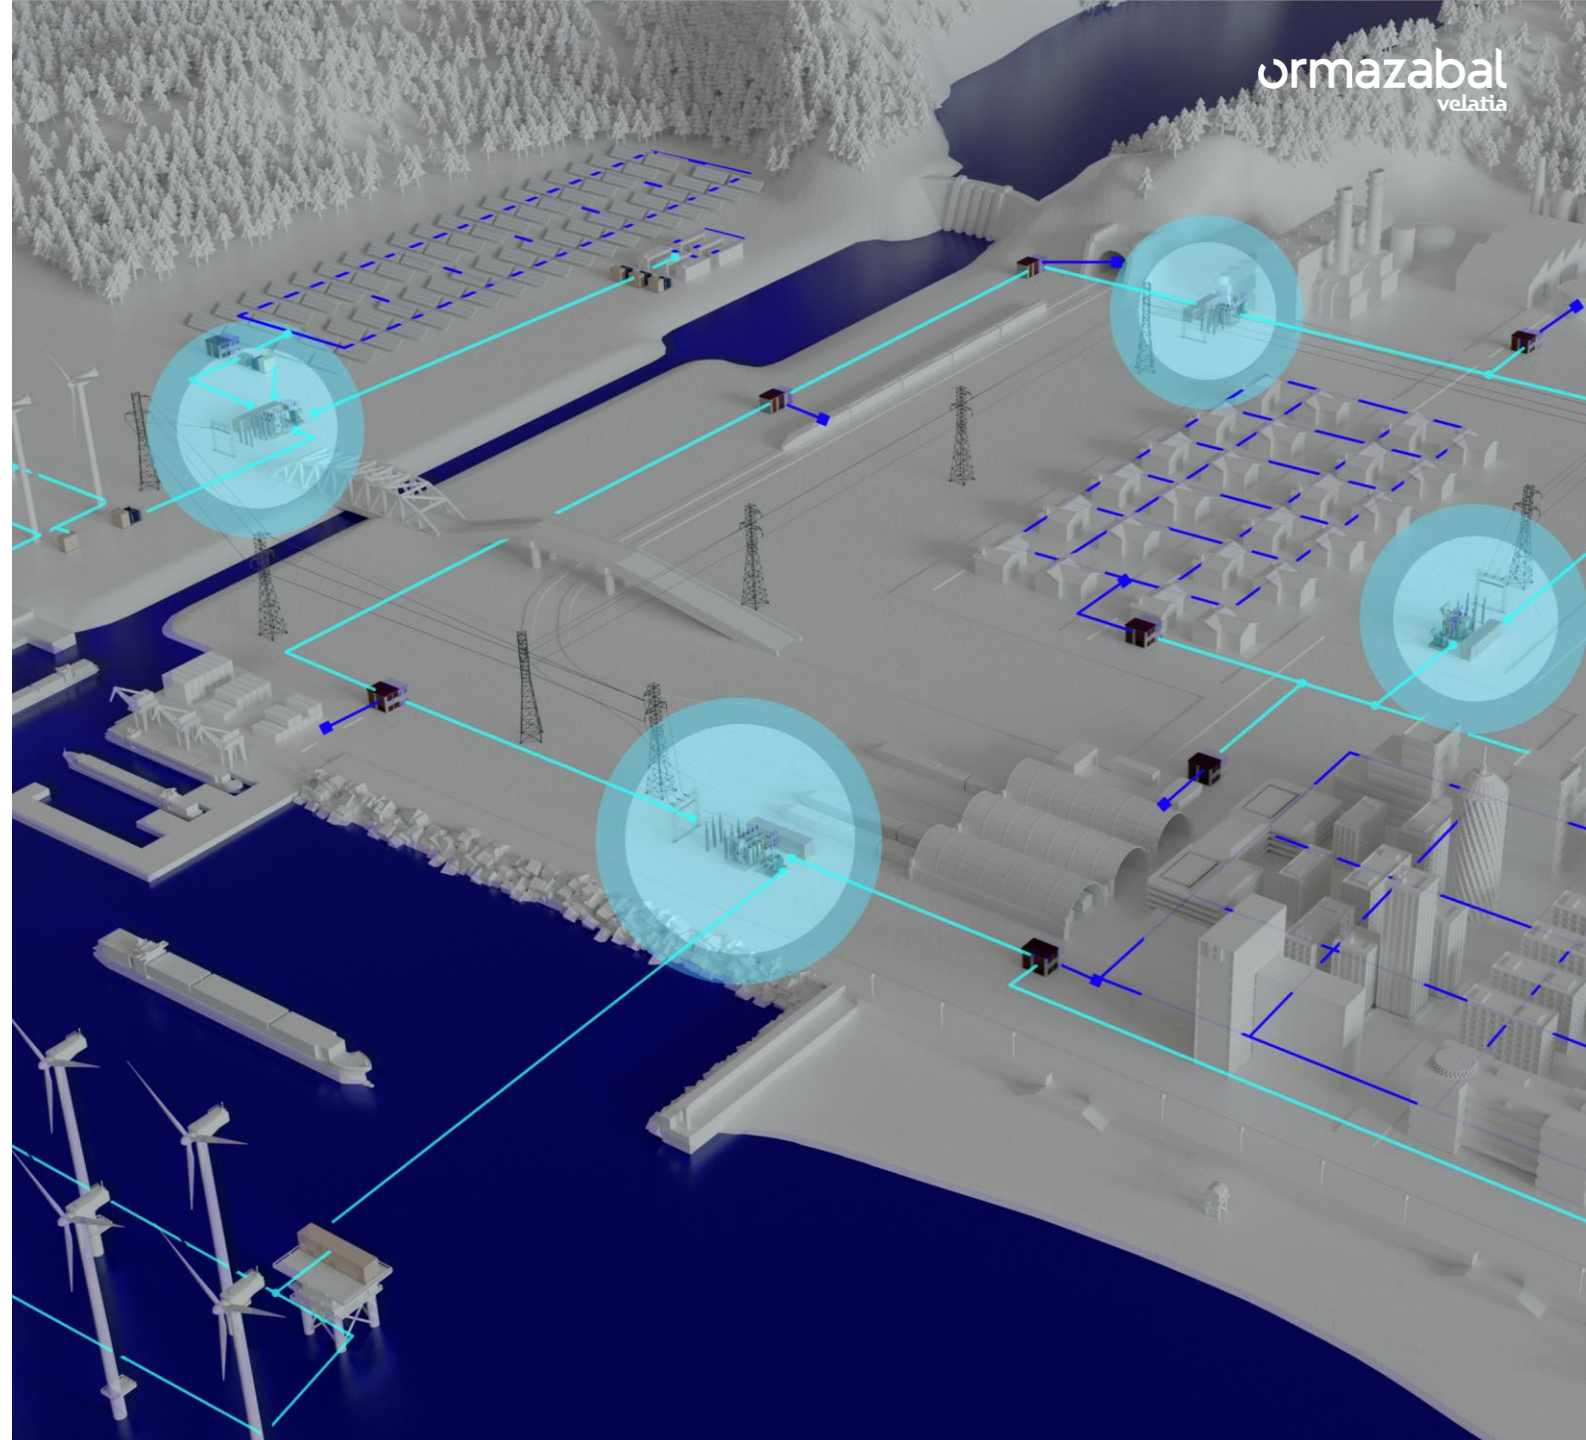

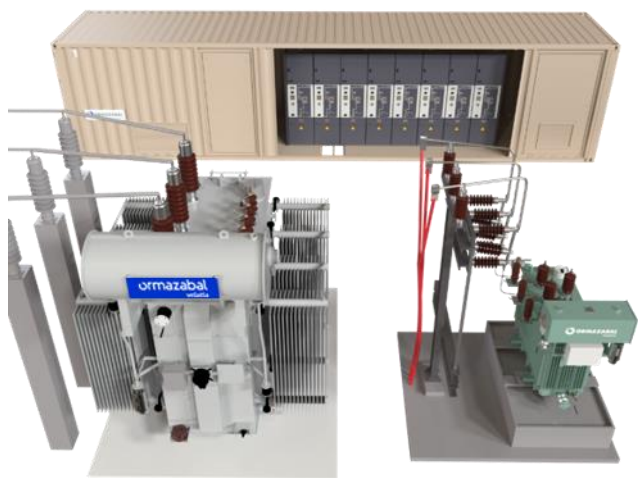

+50% of the ECO fleet

5 PV installations for self-supply

14 ISO certifications in environmental issues

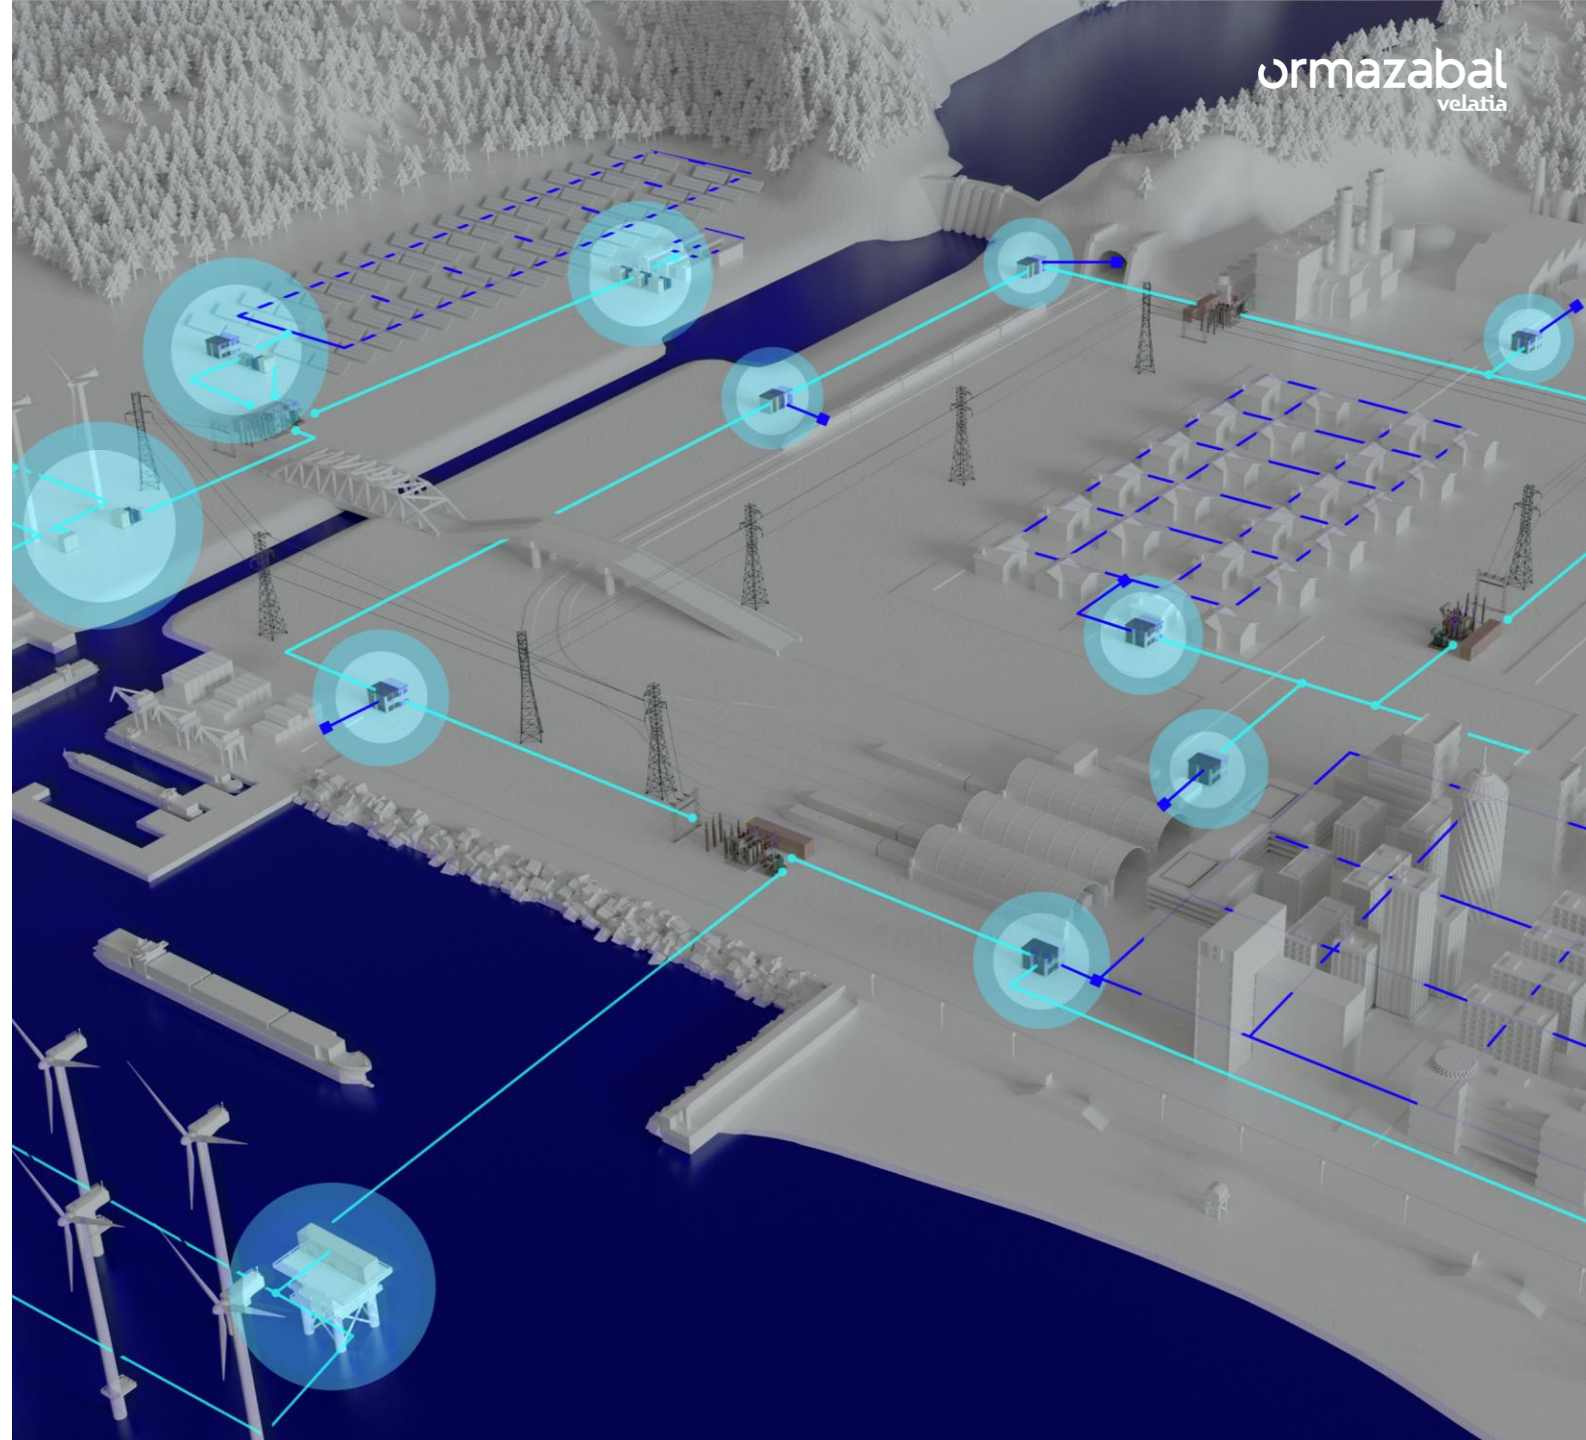

SMART SOLUTIONS

Power generation and distribution substations

SMART SOLUTIONS

Connection and transformation centers

APPLICATIONS

Smart & digital grids

We support the main utilities in the
deployment of their automation systems

+ **15 years** digitalizing the MV grid

+ **24 million** consumers benefit from
our solutions

APPLICATIONS

Green generation & storage

We collaborate with the **leading technologists** in the sector

+ 30 years of experience

+ 150 GW protected and automated

+ 250 MW installed in storage

Presents in important **green H₂** generation projects

APPLICATIONS

Green mobility

We accompany the **main promoters** in the development of their infrastructures

20% of the ultra-fast **charging station** in Europe

+**275** ports, railways and subways

We facilitate the electrical connection for **H₂** mobility

APPLICATIONS

Sustainable buildings & infrastructures

Innovative solutions for infrastructures
with critical power needs

1st tier IV **DPC** electrification in
Europe

Presents in + 80 airports, hospitals,
industries, hotels, shopping centers

Technology for a new
electric world
